EXCEPTIONAL PROJECT OF LUXURY VILLAS WITH 180° SEA VIEW

€ 1.525.000

Almuñécar

4 278 m²

Exclusive luxury project of 15 villas with exceptional ocean views!

The villas are all designed and built in the most luxurious and high quality materials, with the use of huge windows to connect your living with the outdoor spaces: let the sea into your living!
Equipped with 4 to 5 bedrooms & bathrooms, huge living spaces and a modern designer kitchen. Bathrooms are partly en-suite and comfort is offered throughout with built-in closets.
Outside you have spacious terraces, lounge areas and private pool with a panoramic and unique view of the ocean, surroundings and horizon.
Some villas can be personalized with the possibility of creating your own garden, cinema room, sauna, wine cellar, gym,...

The project is located on the Costa Tropical, a beautiful coastal region in Andalusia. With 320 days of sunshine per year and an average temperature of 20° degrees, the Costa Tropical is a vacation paradise in every season.
Thanks to the mild winter, outdoor activities such as golf, tennis, diving and swimming are possible at any time of the year. The snow-capped mountains of the Sierra Nevada even offer skiing and other snow sports.
There are also many pleasant coastal towns with a wide range of stores, restaurants, bars and other recreational facilities.

Easily accessible via the airport at Malaga 45 minutes away.
