PROJECT SURROUNDED BY BEAUTIFUL NATURE

€ 315.000

Gran Alacant

3 | 85 m²

New development, located on the coast of the Costa Blanca.

The flats have 2 to 3 bedrooms, 2 bathrooms, equipped kitchen with open living room and a spacious terrace. All apartments are designed in a contemporary style, with an eye for comfort and light. The ground floor flats offer a private garden area, while the penthouses have a solarium. Here you can enjoy the Spanish sun all day long in privacy, and have the option of installing a Jacuzzi or an outdoor kitchen.
Each flat comes with an underground parking space and storage room.
Furthermore, you have access to the beautifully landscaped communal areas with green areas, swimming pools and a children's playground.

The development is located in a nature reserve area, right next to the Carabassi Dunes Nature Park.
All services and facilities - such as supermarkets, restaurants and banks - are within easy reach. The beautiful sandy beaches of Alicante can be reached in 15 minutes' walk. Sports enthusiasts can enjoy this coastal region all year round, as well as golfers with no fewer than 21 golf courses in the vicinity.
The airport in Alicante is only a 10-minute drive away.
