TIGHT PROJECT ON SANTA POLA COASTLINE

€ 290.000

Santa Pola

3 124 m²

Modern project within city center on the coast!

The project is executed within a contemporary architectural style, with sleek finishes both inside and outside. There are several blocks, all with apartments on 5 levels.
The apartments consist of 2 to 3 bedrooms and 2 bathrooms, equipped open kitchen and living and dining area that opens directly onto your terrace.
The penthouses have a spacious solarium, with jacuzzi and a beautiful panoramic view of the sea and surroundings.
You need to choose a package for underground garage + storage room at the time of purchase.
This comes at an additional cost between € 13,500 and € 19,000, depending on the package chosen!
Within the complex you will find a communal pool, indoor gym, green areas and parking for bikes.

This town, Santa Pola, is somewhat less known to tourists than the other major cities in this region but has exactly the same things to offer. Great beaches, a medieval castle and one of the best boulevards on the Costa Blanca.
There is also a lot to do outside the center, with major cities like Benidorm, Elche, Allicante, Torrevieja and Villajoyosa just a stone's throw away.
Easily accessible, 10 kilometers from Alicante airport.
