ATTACHED HOMES WITHIN UNIQUE SETTING

€ 345.000

El Verger

2 | 74 m²

Semi-detached houses, with 2 or 3 bedrooms, ideally located at walking distance from the long sandy beach of El Verger!
Each house is finished with attention to detail and comfort. The kitchen is equipped with cabinets and technical appliances, air conditioning & heating is already installed, built-in closets in the bedrooms, ... The construction of a private pool in the garden is optional. Also, each unit has a parking space within the community.
The residential units are perfectly integrated into the green surroundings, ensuring coherence between your indoor and outdoor spaces, combined with optimal privacy.
The project includes innovative rainwater harvesting systems, reuse systems and refreshing gardens with native plants for minimal maintenance, photovoltaic panels for self-sufficiency in energy and multiple charging stations for electric vehicles. Sustainability and luxury take center stage. The communal areas feature several outdoor pools, lounge areas, spa with gym, indoor bike storage,...
In addition, residents have access to an entrance to the beach in Denia with associated social club, washrooms and pool.
Step into this unique project and embrace a life in harmony with nature.
